Summer 2017 Workshops

At Idlewild Park Preserve

Eastern Queens Alliance, Inc

Science-In-The-Park Environmental Science Summer Workshops

We are offering hands-on, small-group, Environmental Science Summer Workshops at our Environmental Science Learning Center Trailer located at: **149-20 Springfield Lane, Springfield Gardens, NY, 11413.**

Workshops begin Wednesday, July 5th and conclude on Friday, August 18th.

Ages 6-8: Monday, Tuesday, Wednesday, Thursday

Time: 12:30pm - 3:30pm

Ages 9-12: Monday, Tuesday, Wednesday, Thursday

Time: 9:00 am - 12:00 noon

Students will use Idlewild Park Preserve as an outdoor laboratory to investigate wetlands and their functions. They will find ways to connect with nature and create positive experiences.

WORKSHOP TOPICS

- **July 5th - July 7th:**
Urban Wetlands Wonders! Wetlands are important for so many reasons. Students will become young scientist while exploring the habitats and fascinating wildlife around Idlewild Park Preserve through games, crafts and scientific investigation.

- **July 10th - July 14th:**
EcoKids! Fun, environmentally focused week of activities while they learn how to love and respect their natural environment. Students will explore, discover and learn how to reuse, reduce and recycle materials, to make our world a better place!

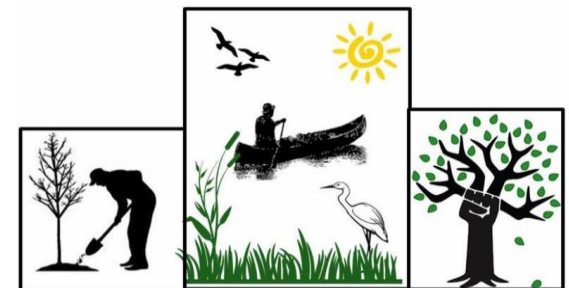

- **July 17th - July 21st**
Be A Water Hero Students will explore the amazing world of water with our cool range of experiments, fun quizzes, science fair projects, amazing videos and much more! Learn about rivers, oceans, ponds, rain, snow, ice and all kinds of interesting water topics.

July 24th - July 28th:
Symphony of the Five Senses & Nature
It takes the nose to know, and your hands, eyes, ears and tongue, too! Students will explore their five senses and learn how they are important in fully experiencing the world around them.

July 31st - August 4th
Young Scientist-Space Exploration for kids
Enjoy learning about stars, planets, moons, the solar system, astronauts, space travel and more! Take part in hands on activities, quizzes, interesting facts as they learn more about outer space.

August 7th - August 11th
Save energy Energy is everywhere! Explore the world of energy through design and create take-home projects to learn more about wind, water and solar resources.

August 14th- August 18th
All About the Weather!!
Look into the world of weather and understand the vital role of weather and climate.
